***From: 09/02 – To: Present***

## My Achievements & Experiences

The following is a statement I have provided about my key achievements and experiences to date.

In my time at school I have achieved much and learnt a great deal.

### Achievements and experiences in education:

As well as receiving awards of distinction and credit in several areas of my academic studies I have been commended by outside organisations for my achievements in the subject of Mathematics. Firstly in 1996 I successfully completed the Greater Manchester Mathematics Challenge and in 1997. I participated in the UK Junior Mathematical Challenge for which I received a Bronze Certificate for the United Kingdom Mathematical Trust.

Last Year I was asked to offer my comments and be a judge on a panel awarding children's authors the Carneige Medal. This was thoroughly compelling and enjoyable experience for me as English is one of my favourite subjects.

### Contribution to school life:

For my whole time at school I have been elected by my peers to be my form representative on the School Council. I believe I fulfilled this role to the best of my ability and have sought to represent the views of as many people in my form as possible.

In Year 7 I took the role of junior reporter for the school newspaper, The Phoenix. I have continued to pursue the interest ever since and have helped in the production of over 15 issues. The experience I have gained and the talent I have developed over this time has led to position of Editor which I am currently performing.

Again my interest in the media has led to the involvement in the school television and radio station. Here I have been involved in a wide range of tasks including presenting broadcasts and helping to organise events such as the annual fashion show. The second major project I participated in was the production of the theatre performance "The King With Cold Feet" at the Lawrence Batley Theatre.

In July 1999 I was chosen to be school prefect by members of staff. I took on the responsibility of mentor to a group of thirty pupils in the lower school as well as helping out at events in the school calendar such as Parents' Evening.

Also as part of my duties I was invited to speak at the annual Awards Evening, on the behalf of my peers, I congratulated the former pupils on their success in the recent GCSE examinations. Following this speech I was then asked to be the Senior Speaker at the Christmas Concert staged for staff and pupils.

### Sport

I have been actively involved in a variety of sporting activities and have been keen to develop my skills in all areas. I particularly enjoy competitive sports, which is why on a number of occasions I have been selected to represent my form in the school hockey and netball tournaments. Further to this I have successfully represented my peers in the lower school cross-country race

My achievements in sport have been commended by two internationally recognised organisations; the Amateur Athletics Association of England from which I received a Star Award and by the British Amateur Gymnastics Association when I passed the test for their 4th class award.

## My Attendance Record

Attendance Record: **100%**

Punctuality Record: **99%**

Your Signature: \_\_\_\_\_

Date: \_\_\_\_\_

Signed by your teacher: \_\_\_\_\_

## My Personal Statement

The following is a statement I have provided all about myself.

I am a friendly, honest and enthusiastic individual who aims to look positively on life. These are some of my personal qualities which have allowed me to get on with most people whom I meet; at school, socially, through work experiences and within my own extended family. I am the middle child of three and I aim to learn from my older brother and set a good example for my younger sister. I have also been involved in peer counselling of younger pupils in Year 7, then Year 8 in school.

I have aimed to show commitment towards all the subjects I opted to take at GCSE level, although sometimes I need to check with my teachers that I have done tasks correctly. Some of my peers think I am too fussy, but I do like to know I have understood the work. My teachers have respected that I have asked for help and have followed advice they have offered me. Through sheer hard work, I have been awarded a certificate for effort in Science.

I enjoy studies in Technology, especially Textiles: I am designing a range of clothes for children age 2–3 years, researching materials, stitching types, possible patterns, washing options and parents' views. This project has shown many challenges to me. I have drafted surveys contacted companies and explored my own design ideas. The work has stretched me and developed my own interests further.

I have been involved with extra-curricular activities including IT Club, training for peer counselling, visits to an after school club at one of the local infant schools and helping on school open evenings/concerts. I have taken part in the Maths Challenge; this is a national competition organised by Leeds University. In addition to this, I have taken a turn in Year 10 at representing my form on the School Council and in the boy's team on Sports Day.

I have always aimed to arrive at school on time; my attendance rate of 97.9% reflects this. It is important to me to be punctual and set myself realistic deadlines for work. Sometimes completion times may have to be altered due to problems with IT or perhaps unavailable resources, but this does not prevent work from being handed in.

Having mixed race origins, I have experience a wealth of different cultural and social experiences: I speak three languages fluently, English, Urdu and French: my grandparents lived in France, moved to Huddersfield where my dad was born and through family friends he met, then married my mum. In my spare time I play football at Skylark and I have friends who play in a band: I like to listen to them rehearsing. I help with the sound equipment and I help to balance the mixing of the instruments and vocals.

## My Future

The following is a statement I have provided about my ambitions and plans for the future.

In the future I hope to complete AS levels, leading to A-levels or GNVQ Graphic Design course. My aim is to continue with my studies to achieve the qualifications I need to cite myself in a rewarding career. I am particularly interested in working in the area of Graphic Design and Illustration. Ultimately I will need to attend University to achieve a high standard.

As well as my future career plans I am also keen to keep up with my sporting hobbies, particularly cricket. I will be attempting to get in to the under 18s side next year for local team Sudderby CC. I plan to train harder through out this winter.

Before attending University I plan to travel to Australia as I have family there and I have never been before. It would be a good learning experience to see other parts of the world.

## MY RECORD OF ACHIEVEMENT: produced by Steve Smith

### Subjects I Am Currently Studying

The following is a list of the current subjects I am studying at school and where applicable the corresponding target grade for each.

Subject	My Target Grades
Maths	B
English	B
Spanish	B
Geography	A
P.E	A
Art	A
Media Studies	B
IT	C
Design & Technology	B
Business Studies	D

### My Qualifications & Credits

The following is a list of the academic qualifications I have achieved to date.

Subject	Qualification	Awarding Body	Level/Result	Date	Key Stage
Maths	GCSE	LEACO	A	01/05/08	4
